Kigali, 19/02/2021

Ref. No:DIS/...../ FDA/2021

**REPORT OF COUNTRYWIDE SAMPLING ACTIVITY FOR POST MARKETING
SURVEILLANCE PURPOSE FOR BOTH PHARMACEUTICAL PRODUCTS AND FOOD
PRODUCTS CONDUCTED FROM 18th TO 29th JANUARY 2021**

1.0 Introduction:

Rwanda FDA is established by the law N° 003/2018 of 09/02/2018 determining its mission, organization and functioning with mandate of regulation and control of Food and Drugs through different regulatory functions. The mission of Rwanda FDA is to protect public health by ensuring Safety, Efficacy and Quality of Human and Veterinary medicines, vaccines and other biologics, food, poisons, medicated cosmetics, medical devices, household chemical substances, tobacco and tobacco products and conduct of clinical trials through the regulation and control.

Missions of Rwanda FDA includes regulation of pharmaceutical products, processed foods and compliance with quality standards relating to the manufacture, storage, sale, distribution, use, import and export, labels, packages and raw materials used in the manufacture of products regulated by the authority and conduct pharmacovigilance and post marketing surveillance for safety and quality monitoring of the regulated products.

Reference to the prevalence of substandard and falsified products worldwide, where the World Health Organization (WHO) estimated that 1 in 10 medical products circulating in low- and middle-income countries (LMICs) are either substandard or falsified.

It is within the above background Rwanda FDA through its Division of Pharmacovigilance and Food Safety Monitoring conducted sampling activity targeting medicines and Food products

circulating on Rwandan market so as to detect their quality. This activity was conducted within 30 districts where the team of inspectors was divided into 4 teams respectively of province of our country East, West, North and South noting that at Kigali sampling activity was conducted by team East, North and South.

All teams collected a total number of **seven hundred and twenty-two (772)** samples; including six hundred and fourteen **(614) pharmaceutical products** and one hundred and eight **(108) food products** samples across all thirty districts of the country. After collection, all samples were submitted in to Rwanda FDA Quality Control Laboratory for further testing of their respective quality.

2.0 List of Pharmaceutical products samples collected by Team South

11	Strawberry YOGHURT	Not mentioned	05/01/2021	04/02/2021	RUBAVU District
12	UHT Milk/INYANGE Low Fat Milk	063	25/11/2020	24/05/2021	RUBAVU District
13	Fruit Drink (White Guava)/AFIA	SM# 15473 B1	30/11/2020	30/07/2021	RUBAVU District
14	Medium Fat Spread/BLUE BAND	204832	26/11/2020	24/06/2021 (BB)	NYAMASHEKE District
15	Packaged Drinking Water/NIL	297	29 Dec 2020	28 Dec 2021	RUSIZI District
16	Strawberry YOGHURT	Not mentioned	18/01/2021	17/02/2021	RUSIZI District
17	Flavoured Milk/MUKAMIRA (Strawberry)	002	30/11/2020	29/08/2021	RUSIZI District
18	Beer/BROK	C0374	11/06/2020	04/09/2021	RUSIZI District

19	Passion Juice/HERO Intwari	Not mentioned	10/12/2020	10/12/2021	NYAMAGABE District
20	Natural Mineral water/INYANGE	1649	18/12/2020	17/12/2021	NYAMAGABE District
21	Flavoured Soft Drink/SALAMA (Strawberry)	Not mentioned	20/10/2020	20/10/2021	NYAMAGABE District
22	Natural Fermented Milk/IKIVUGUTO	Not mentioned	27/01/2021	17/02/2021	NYAMAGABE District

In total, 149 pharmaceutical products and 22 food products were collected. Afterwards, all the collected Samples were submitted to Quality control laboratory for further testing of their quality.

6.0 Challenges faced during sampling activity

- ☐ Lack of sampling tools that can be used during sampling activity.
- ☐ Dealers of food products were not aware of this sampling activity
- ☐ Lack of money to purchase samples that Food dealers refused to provide freely
- ☐ Lack of stakeholders' awareness (generally) about Rwanda FDA's activities particularly in food sector

7.0 Recommendation to Rwanda FDA

- ☐ As this activity is very important activity to ensure the quality and safety of Food and Drugs circulating to the market Rwanda FDA need to publish this activity officially using different channels like Radio, TV before conducting sampling activity
- ☐ Rwanda FDA need to write the official letter to PSF at National level and in each district so as to increase awareness on the sampling activity
- ☐ Rwanda FDA need to plan the budget allocated to the purchase of samples as we missed samples of expensive products on the market
- ☐ Sampling of food and medicine products should be done in different periods (separately) so that each of them is done effectively.
- ☐ Sampling of food and medicine products should be a regular activity on a given time interval for post market surveillance.
- ☐ Rwanda FDA needs to have sampling tools that can be used during sampling activity.
- ☐ Sampling activity for post market surveillance could be an opportunity to identify customer or clients' complaints
